Dear Reader,

Welcome to the latest from Encounter Books!

You all know about that (probably apocryphal) Chinese curse: “May you live in interesting times.” Well, whoever said it, here we are. This season’s list will help you chart your way through these troubled waters and, I am pleased to say, provide at least a few reasons for hope. Let me mention here just a few highlights:

- ▶ In *Putin’s Master Plan*, Douglas E. Schoen shows in scari-fying detail how Vladimir Putin is attempting to divide Europe, destroy NATO, and reclaim a dominant role for Russia on the international scene. This is a wake-up call for Americans who have been lulled into complacency by assurances that the Cold War is over and fundamental conflict is a thing of the past.
- ▶ On the domestic front, hysteria over a supposed epidemic of rape has turned college campuses into totalitarian redoubts where ideological extremists conduct witch-hunts. In *The Campus Rape Panic*, K.C. Johnson and Stuart Taylor set the record straight about this pseudo crisis and the rise of mobocracy in higher education.
- ▶ In a free society, you shouldn’t have to ask permission to exercise basic liberties. Yet our increasingly regulated and bureaucratized society has gone a long way towards transforming essential freedoms into privileges. In *The Permission Society*, Timothy Sandefur shows how the right to speak freely, to earn a living, even the right to take medicine to save one’s own life are now treated as privileges that the government may grant or withhold at will.
- ▶ Not all the news is bad. On the allegro side of the ledger, we are pleased to be publishing Melanie Kirkpatrick’s sparkling book about that most American of American holidays, Thanksgiving. In this beautifully designed meditation on the most paradigmatic American holiday, Kirkpatrick offers an engrossing history that is also an act of national recuperation.
- ▶ Let me conclude by introducing you to our latest initiative, Encounter Intelligence. We asked ourselves “Who will invent America’s next great century?” and we saw that the big ideas that will revolutionize the way we live will not emerge from our nation’s capital. They will be dreamt up, as they always have been, by enterprising Americans who hope to create positive value for others. Our first installment in this series is Jared Meyer’s *Uber-Positive: Why Americans Love the Sharing Economy*.

I hope you will peruse this entire catalogue of new of titles—and our extensive backlist. And please be sure to investigate our beautifully redesigned web site at encounterbooks.com, where you will find a veritable galaxy of features about our books, our authors, and Encounter’s mission to revitalize the engines of democratic capitalism and the perquisites of individual liberty.

Thank you for your continued support.

Robert C. O'Brien

FOREWORD BY
HUGH HEWITT

While America Slept

*Restoring American Leadership to a
World in Crisis*

ROBERT C. O'BRIEN'S collection of essays on U.S. national security and foreign policy, with a foreword by Hugh Hewitt, is a wake up call to the American people. The world has become steadily more dangerous under President Obama's "lead from behind" foreign policy. The Obama Administration's foreign policy has emboldened our adversaries and disheartened our allies. Indeed, Obama's nuclear deal with Iran is a 1938 moment. At the same time, the U.S. military has been cut and risks returning to the hollow force days of the 1970s. O'Brien lays out the challenges and provides the common sense "peace through strength" solutions that will allow the next president to make America great again.

ROBERT C. O'BRIEN is a trial lawyer with an international practice at Larson O'Brien LLP in Los Angeles. He was a senior foreign policy advisor to Governor Scott Walker's 2016 presidential campaign. Robert served as a senior advisor to Governor Mitt Romney on both of his presidential campaigns. He lives in La Canada, CA.

The Permission Society

Timothy Sandefur

How the Ruling Class Turns Our Freedoms into Privileges and What We Can Do About It

THROUGHOUT HISTORY, kings and emperors have promised “freedom” to their people. Yet these freedoms were really only permissions handed down from on high. The American Revolution inaugurated a new vision: people have a basic right to life, liberty, and the pursuit of happiness, and government must ask permission from them.

Sadly, today’s increasingly bureaucratic society is beginning to turn back the clock, and transform America into a nation where our freedoms—the right to speak freely, to earn a living, to own a gun, to use private property, even the right to take medicine to save one’s own life—are again treated as privileges the government may grant or withhold at will. Timothy Sandefur examines the history of the distinction between rights and privileges that played such an important role in the American experiment—and how we can fight to retain our freedoms against the growing power of government.

Illustrated with dozens of real-life examples—including many cases he litigated himself—Sandefur shows how treating freedoms as government-created privileges undermines our Constitution and betrays the basic principles of human dignity.

TIMOTHY SANDEFUR is Vice President for Litigation at the Goldwater Institute. Before joining Goldwater, he served 15 years as a litigator at the Pacific Legal Foundation, where he won important victories for economic liberty in several states. He lives in Chandler, AZ.

WITH EVAN ROTH SMITH

Putin's Master Plan

To Destroy Europe, Divide NATO, and Restore Russian Power and Global Influence

V^LADIMIR PUTIN has a master plan to divide Europe, destroy NATO, reclaim Russian influence in the world, and most of all to marginalize the United States and the West in order to achieve regional hegemony and global power. Until now, Putin's unified strategy and vision for Europe has not been thoroughly discussed or articulated in any meaningful way. *Putin's Master Plan* is the first comprehensive attempt to systematically explain Putin's global strategy that could inevitably and inexorably lead to the breakup of the NATO alliance and potentially to war with the West. The West has no strategy, no plan, and no tactics to confront Putin's master plan other than limited economic sanctions, which have done little to deter Putin's aggression—and may well have encouraged and facilitated it.

Putin's Master Plan makes the case that it is essential to wake up to Putin's strategy to divide Europe, destroy NATO, and build a new empire in the former Soviet Union. Russia has demonstrated an extraordinary level of aggression, most boldly by its outright invasions of Georgia and Ukraine. Russia's terrified neighbors have been left without an alternative to Russian domination by American weakness and a divided Europe, and even once-stalwart American allies such as Georgia are on the brink of becoming part of Putin's new empire in Europe. Putin has made it clear that he sees NATO expansion as a fundamental threat to Russian nationhood, and he is systematically challenging the NATO alliance as well as the United States. So far, he is winning.

DOUGLAS E. SCHOEN has been one of the most influential Democratic campaign consultants for over thirty years. His political clients include former President Bill Clinton as well as former New York City Mayor Michael Bloomberg. He lives in New York City.

Shattered Consensus | James Piereson

The Rise and Decline of America's Postwar Political Order

THE UNITED STATES has been shaped by three sweeping political revolutions: Jefferson's "revolution of 1800," the Civil War, and the New Deal. Each of these upheavals concluded with lasting institutional and cultural adjustments that set the stage for a new phase of political and economic development. Are we on the verge of another upheaval, a "fourth revolution" that will reshape U.S. politics for decades to come? There are signs to suggest that we are.

James Piereson describes the inevitable political turmoil that will overtake the United States in the next decade as a consequence of economic stagnation, the unsustainable growth of government, and the exhaustion of postwar arrangements that formerly underpinned American prosperity and power. The challenges of public debt, the retirement of the "baby boom" generation, and slow economic growth have reached a point where they require profound changes in the role of government in American life. At the same time, the widening gulf between the two political parties and the entrenched power of interest groups will make it difficult to negotiate the changes needed to renew the system.

Shattered Consensus places this impending upheaval in historical context, reminding readers that Americans have faced and overcome similar trials in the past, in relatively brief but intense periods of political conflict. While others claim that the United States is in decline, Piereson argues that Americans will rise to the challenge of forming a new governing coalition that can guide the nation on a path of dynamism and prosperity.

JAMES PIERESON is president of the William E. Simon Foundation and a senior fellow at the Manhattan Institute. He lives in Sleepy Hollow, NY.

*The Holiday at the Heart of the
American Experience*

WE ALL KNOW the story of Thanksgiving. Or do we? This uniquely American holiday has a rich and little known history beyond the famous feast of 1621.

In *Thanksgiving*, award-winning author Melanie Kirkpatrick journeys through four centuries of history, giving us a vivid portrait of our nation's best-loved holiday. Drawing on newspaper accounts, private correspondence, historical documents and cookbooks, Thanksgiving brings to life the full history of the holiday and what it has meant to generations of Americans.

Many famous figures walk these pages—Washington, who proclaimed our first Thanksgiving as a nation amid controversy about his Constitutional power to do so; Lincoln, who wanted to heal a divided nation sick of war when he called for all Americans—North and South—to mark a Thanksgiving Day; FDR, who set off a debate on state's rights when he changed the traditional date of Thanksgiving.

Ordinary Americans also play key roles in the Thanksgiving story—the New England Indians who boycott Thanksgiving as a Day of Mourning; Sarah Josepha Hale, the nineteenth-century editor who successfully campaigned for Thanksgiving to be a national holiday; the 92nd Street Y in New York City, which founded Giving Tuesday.

While the rites and rituals of the holiday have evolved over the centuries, Kirkpatrick shows that its essence remains the same: family and friends feasting together in a spirit of gratitude, neighborliness and hospitality.

MELANIE KIRKPATRICK is a senior fellow at the Hudson Institute and a former deputy editor of the Wall Street Journal's editorial page. She lives in rural Connecticut with her husband, Jack David.

When Reason Goes on Holiday

Philosophers in Politics

Neven Sesardić

PHILOSOPHERS USUALLY emphasize the importance of logic, clarity, and reason. Therefore when they address political issues they will usually inject a dose of rationality in these discussions, right?

Wrong. This book gives a lot of examples showing the unexpected level of political irrationality among leading contemporary philosophers. The body of the book presents a detailed analysis of extreme leftist views of a number of famous philosophers and their occasional descent into apology for—and occasionally even active participation in—totalitarian politics. Most of these episodes are either virtually unknown (even inside the philosophical community) or have received very little attention.

The author tries to explain how it was possible that so many luminaries of twentieth-century philosophy, who invoked reason and exhibited rigor and careful thinking in their professional work, succumbed to irrationality and ended up supporting some of the most murderous political regimes and ideologies. The huge leftist bias in contemporary philosophy and its persistence over the years is certainly a factor but it is far from being the whole story.

Interestingly, the indisputably high intelligence of these philosophers did not actually protect them from descending into political insanity. It is argued that, on the contrary, both their brilliance and the high esteem they enjoyed in the profession only made them more self-confident and less cautious, thereby eventually making them blind to their betrayal of reason and the monstrosity of the causes they defended.

NEVEN SESARDIĆ has taught philosophy at universities in Croatia, the United States, Japan, England, and Hong Kong. He lives in Zagreb, Croatia.

Ilan Berman

Iran's Deadly Ambition

*The Islamic Republic's Quest
for Global Power*

ARE WE ON the cusp of détente with Iran? Conventional wisdom certainly seems to believe so. Since the start of diplomacy between the Islamic Republic and the P5+1 powers (the United States, France, England, Russia, China, Germany) in November 2013, hopes have been running high for a historic reconciliation of Iran's clerical regime with the West.

Yet there is ample reason for skepticism that the United States and its allies can truly curb Iran's nuclear ambitions by diplomatic means. Moreover, the West's current focus on Iran's nuclear program is deeply dangerous insofar as it fails to recognize—let alone address—Iran's other international activities or its foreign policy aims. Those objectives are global, and they continue to grow in scope and menace.

In this sobering book, Ilan Berman illuminates the multiple dimensions of the Iranian threat and exposes the perils of lodging confidence in diplomacy with the Islamic Republic.

ILAN BERMAN is vice president of the American Foreign Policy Council, with expertise on regional security in the Middle East, Central Asia, and the Russian Federation. He lives in Olney, MD.

Bottleneckers

*Gaming the Government
for Power and Private Profit*

William Mellor and
Dick M. Carpenter II ^{PhD}

THE LEFT, RIGHT AND CENTER all hate them: powerful special interests who use government power for their own private benefit. In an era when the Left hates “fat cats” and the Right despises “crony capitalists,” now there is an artful and memorable one-word pejorative they can both get behind: Bottleneckers.

A “bottleneck” is anyone who uses government power to limit competition thereby reaping monopoly profits and other benefits. Bottleneckers work with politicians to constrict competition, entrepreneurial innovation, and opportunity; they limit consumer choice; they drive up consumer prices; and they support politicians who willingly overstep the constitutional limits of their powers to create, maintain, and expand these anticompetitive bottlenecks.

The Institute for Justice’s new book, *Bottleneckers*, coins a new word in the American lexicon, and provides a rich history and well-researched examples of bottleneckers in one occupation after another—from alcohol distributors to taxicab cartels—pointing the way to positive reforms.

WILLIAM H. (CHIP) MELLOR serves as chairman and founding general counsel of the Institute for Justice. He co-founded IJ in 1991 and served as president and general counsel until 2015. He lives in Falls Church, VA.

DICK CARPENTER is a director of strategic research at the Institute for Justice and a professor at the University of Colorado in Colorado Springs. He lives in Peyton, CO.

Joy Pullman | Education Invasion

How Common Core Fights Parents for Control of American Kids

IN 2009, a conglomerate of unelected, self-appointed officials met behind closed doors to create a set of rules that would outline what children must learn in every grade in core K–12 classes. In 2010, the Obama administration required states to use these rules for curriculum and tests to have a chance at extra federal money during the Great Recession. Three years later, most Americans told pollsters they had no idea what Common Core was.

Their children were beginning to find out, however. Pullmann tugs on a thread that leads to a big tangle of history, politics, and intrigue that together help explain why small children must sit and cry over math homework while their parents look on helplessly. Early test results suggest Common Core means American kids will learn less. Why, then, did we do it? Who made out like bandits while kids and self-governance suffered? And how can Americans ensure their children won't be served the same rewarmed brain hash they have rejected time and time again?

JOY PULLMANN is managing editor of The Federalist and an education research fellow at The Heartland Institute. She received a Robert Novak journalism fellowship in 2013–14 to fund in-depth research and reporting on Common Core. She lives in Fort Wayne, ID.

Children of Monsters | Jay Nordlinger

An Inquiry into the Sons and Daughters of Dictators

WHAT'S IT LIKE to be the son or daughter of a dictator? A monster on the Stalin level? What's it like to bear a name synonymous with oppression, terror, and evil? Jay Nordlinger set out to answer that question, and does so in this book. He surveys 20 dictators in all. They are the worst of the worst: Stalin, Mao, Idi Amin, Pol Pot, Saddam Hussein, and so on. The book is not about them, really, though of course they figure in it. It's about their children.

Some of them are absolute loyalists. They admire, revere, or worship their father. Some of them actually succeed their father as dictator—as in North Korea, Syria, and Haiti. Some of them have doubts. A couple of them become full-blown dissenters, even defectors. A few of the daughters have the experience of having their husband killed by their father. Most of these children are rocked by war, prison, exile, or other upheaval.

Obviously, the children have things in common. But they are also individuals, making of life what they can. The main thing they have in common is this: They have been dealt a very, very unusual hand.

What would you do, if you were the offspring of an infamous dictator, who lords it over your country?

An early reader of this book said, "There's an opera on every page": a drama, a tragedy (or even a comedy). Another reader said he had read the chapter on Bokassa "with my eyes on stalks."

Meet these characters for yourself. Marvel, shudder, and ponder.

JAY NORDLINGER is a senior editor of National Review. He writes about a variety of subjects, including politics, foreign affairs, and culture. He is the music critic of The New Criterion. His previous book is Peace, They Say, a history of the Nobel Peace Prize. The author lives in New York City.

Stuart Taylor, Jr.

Campus Rape Panic

*How Politicians, Academia, and the Media
Railroad the Falsely Accused*

IN RECENT YEARS, politicians led by President Obama and prominent senators and governors have teamed with extremists on campus to portray our nation's campuses as awash in a violent crime wave—and to suggest (preposterously) that university leaders, professors, and students are indifferent to female sexual assault victims in their midst. Neither of these claims has any basis in reality. But they have achieved widespread acceptance, thanks in part to misleading alarums from the Obama Administration and biased media coverage led by the *New York Times*.

The panic about campus rape has helped stimulate—and has been fanned by—ideologically skewed campus sexual assault policies and lawless commands issued by federal bureaucrats to force the nation's all-too-compliant colleges and universities essentially to presume the guilt of accused students. The result has been a widespread disregard of such bedrock American principles as the presumption of innocence and the need for fair play.

This book will use hard facts to set the record straight. It will, among other things, explore many cases since 2010 in which innocent or probably innocent students have been branded as sex criminals and expelled or otherwise punished by their colleges. And it will show why all students—and society as a whole—are harmed when our nation's universities abandon pursuit of truth to accommodate the passions of the mob.

KC JOHNSON is a professor of history at Brooklyn College and the CUNY Graduate Center. He lives in Minnesota.

STUART TAYLOR, JR., serves as a Nonresident Senior Fellow in Governance Studies at the Brookings Institution. He lives in Washington, D.C.

All Falling Faiths

J. Harvie Wilkinson III

Reflections on the Promise and Failure of the 1960s

IN THIS WARM and intimate memoir Judge Wilkinson delivers a chilling message. The 1960s inflicted enormous damage on our country; even at this very hour we see the decade's imprint in so much of what we say and do. The chapters reveal the harm done to the true meaning of education, to our capacity for lasting personal commitments, to our respect for the rule of law, to our sense of rootedness and home, to our desire for service, to our capacity for national unity, to our need for the sustenance of faith. Judge Wilkinson does not seek to lecture but to share in the most personal sense what life was like in the 1960s, and to describe the influence of those frighteningly eventful years upon the present day.

Judge Wilkinson acknowledges the good things accomplished by the Sixties and nourishes the belief that we can learn from that decade ways to build a better future. But he asks his own generation to recognize its youthful mistakes and pleads with future generations not to repeat them. The author's voice is one of love and hope for America. But our national prospects depend on facing honestly the full magnitude of all we lost during one momentous decade and of all we must now recover.

J. HARVIE WILKINSON III is a federal judge on the United States Court of Appeals for the Fourth Circuit. Judge Wilkinson graduated from Yale University in 1967 and received his law degree from the University of Virginia in 1972. He lives in Charlottesville, VA.

Harry Jaffa, Walter Berns, and the Arguments that Redefined American Conservatism

THIS BOOK IS a lively intellectual history of a small circle of thinkers, especially, but not solely, Harry Jaffa and Walter Berns, who challenged the “mainstream” liberal consensus of political science and history about how the American Founding should be understood. Along the way they changed the course of the conservative movement and had a significant impact on shaping contemporary political debates from constitutional interpretation to the corruption of government today. Most importantly, these thinkers explain the deep reasons for patriotism—why we should love America not just because it is *our country*, but because it is a free and just country.

STEVEN F. HAYWARD is the Ronald Reagan Distinguished Visiting Professor at Pepperdine University’s Graduate School of Public Policy. He lives in Cambria, CA.

Campus Speech in Crisis

What the Yale Experience

Can Teach America

Nathaniel A. G.
Zelinsky

WITH A PREFACE BY GEORGE WILL

FREE SPEECH is in crisis on America's campuses. Rather than refute an idea with which he disagrees, today's college student demands censorship. At the slightest hint of offense, the weak-willed administrator complies and disinvites a speaker while a close-minded protestor disrupts a lecture. This disturbing trend threatens the very purpose of education, to expose the mind to various points of view. The sad message today's students learn: shouting delivers results.

This short booklet offers a timeless defense of free expression, first authored at Yale University in 1975 and all too relevant in the current climate.

Like many higher education institutions then and now, Yale had faced protest and censorship. In response to that free speech crisis, a faculty-student committee chaired by renowned historian C. Vann Woodward composed the "Woodward Report." Its wonderful prose boldly defends the right for all to "think the unthinkable, discuss the unmentionable, and challenge the unchallengeable." The Woodward Report is a model for all those who seek to stand up for the civil exchange of ideas and against the forces of censorship.

In addition to the Woodward Report itself, readers will find an introduction contextualizing the report's history and exegesis of the text by Judge José A. Cabranes and Yale Law School Professor Kate Stith.

NATHANIEL A. G. ZELINSKY is a J.D. candidate at Yale Law School. He holds degrees from Yale College and the University of Cambridge. He lives in New Haven, CT.

ENCOUNTER BOOKS

2016

CHILDREN ARE TAKEN from their parents because they are obese. Parents are arrested for letting their kids play outside alone. Sledding and swaddling is banned. From games to school, breastfeeding to daycare, the overbearing bureaucratic state keeps getting between kids and their parents.

The state intervening in decisions that used to be up to parents is commonplace today. Whether to allow children to go un-chaperoned to the local pizza shop, what drinks or food can get sent to school, whether to breast or bottle feed babies were all choices that used to be left to you and me. Not anymore. Now the state's safety, hygiene and health regulations rule, and its judgment might not coincide with yours.

No Child Left Alone will explore the growing problem of an intrusive and interfering state breathing down the necks of average parents just trying to do the best they can for themselves and their families.

As a mom to four kids, I have come to know the intrusions of the nanny state first hand. I should be used to it, but I'm not. Instead, all the government-mandated parenting gets under my skin. And I'm not alone. *No Child Left Alone* will highlight the problem while shining a light on those parents fighting to take back control over their families.

ABBY W. SCHACHTER is a Pittsburgh-based writer. She is a columnist for the Pittsburgh Tribune Review and is a contributor to Acculturated.

Twisting Title IX | Robert L. Shibley

THIS IS THE STORY of how Title IX, a 1972 law intended to ban sex discrimination in education, became a monster that both the federal government and many college administrators treat as though it supersedes both the U.S. Constitution and hundreds of years of common law. It is a story about the victims of this law—men and women both—and of the unaccountable government bureaucrats at the Departments of Education and Justice who repeatedly prioritize an extreme brand of politics over free speech, fundamental fairness, and basic human decency. Though help may come too late for many of the present victims of Title IX abuse, there are still measures that colleges and courts can take to curb these abuses until Congress acts—or we see a Presidential administration that cares more about restoring justice and the rule of law than it does about sex and gender politics.

ROBERT L. SHIBLEY is executive director of the Foundation for Individual Rights in Education (FIRE). A native of Toledo, Ohio, he is a graduate of Duke University and Duke University School of Law. He has discussed free speech and due process issues in national and international radio and TV interviews, including The O'Reilly Factor and CNN Tonight with Don Lemon, as well as in published op-eds in USA Today, the Washington Post, and many other newspapers and magazines. Robert and his wife Araz live in North Carolina with their two daughters.

New Broadside 19

ENCOUNTER BOOKS
2016

IF YOU WANT to know why American Indians have the highest rates of poverty of any racial group, why suicide is the leading cause of death among Indian men, why native women are two and a half times more likely to be raped than the national average, and why gang violence affects American Indian youth more than any other group, do not look to history. There is no doubt that white settlers devastated Indian communities in the 19th and early 20th centuries. But it is our policies today – denying Indians ownership of their land, refusing them access to the free market and failing to provide the police and legal protections due to them as American citizens – that have turned reservations into small third-world countries in the middle of the richest and freest nation on earth.

The tragedy of our Indian policies demands reexamination immediately – not only because they make the lives of millions of American citizens harder and more dangerous – but also because they represent a microcosm of everything that has gone wrong with modern liberalism. They are the result of decades of politicians and bureaucrats showering a victimized people with money and cultural sensitivity instead of what they truly need – the education, the legal protections, and the autonomy to improve their own situation.

If we are really ready to have a conversation about American Indians, it is time to stop bickering about the names of football teams and institute real reforms that will bring to an end this ongoing national shame.

NAOMI SCHAEFER RILEY is a weekly columnist for the New York Post and a former Wall Street Journal editor and writer whose work focuses on higher education, religion, philanthropy and culture. She lives in the suburbs of New York with her husband, Jason, and their three children.

The War on Cops

Heather MacDonald

*How the New Attack on Law and Order
Makes Everyone Less Safe*

SINCE THE summer of 2014, America has been convulsed with a protest movement known as Black Lives Matter. That movement holds that police officers are among the greatest threats – if not the greatest threat – facing young black males today. Policing and the rest of the criminal justice system – from prosecutors to drug laws – single out minority communities for gratuitous and heavy-handed enforcement, the charge goes, resulting in an epidemic of “mass incarceration” that falls most heavily on blacks.

The War on Cops challenges that narrative. Through vivid, street-level reporting, Heather Mac Donald gives voice to the many residents of high-crime neighborhoods, rarely heard in the media, who support proactive policing and want more of it.

Mac Donald tackles contested tactics, from stop and frisk to “broken windows,” along with the argument that racist drug statutes and enforcement lie behind the black incarceration rate, to explain why proactive policing is the greatest public policy success story of the last quarter century, resulting in a record-breaking national crime drop that no criminologist or even police chief foresaw.

That crime drop is now at risk, however, thanks to the nonstop agitation against the police led by the Black Lives Matter movement. *The War on Cops* is a call for a more honest and informed debate about policing, crime, and race, before the public safety gains of the last twenty years are lost.

HEATHER MAC DONALD is the Thomas W. Smith Fellow at the Manhattan Institute and a contributing editor of City Journal.

ENCOUNTER BOOKS
2016

Jay Cost | *A Republic No More*

Big Government and the Rise of American Political Corruption

AFTER THE Constitutional Convention, Benjamin Franklin was asked, “Well, Doctor, what have we got – a Republic or a Monarchy?” Franklin’s response: “A Republic – if you can keep it.”

This book argues: we couldn’t keep it.

A true republic privileges the common interest above the special interests. To do this, our Constitution established an elaborate system of checks and balances that separates power among the branches of government, and places them in conflict with one another. The Framers believed that this would keep grasping, covetous factions from acquiring enough power to dominate government. Instead, only the people would rule.

Proper institutional design is essential to this system. Each branch must manage responsibly the powers it is granted, as well as rebuke the other branches when they go astray. This is where subsequent generations have run into trouble: we have overloaded our government with more power than it can handle. The Constitution’s checks and balances have broken down because the institutions created in 1787 cannot exercise responsibly the powers of our sprawling, immense twenty-first century government.

The result is the triumph of special interests over the common interest. James Madison called this factionalism. We know it as political corruption.

Corruption today is so widespread that our government is not so much a republic, but rather a special interest democracy. Everybody may participate, yes, but the contours of public policy depend not so much on the common good, but rather the push-and-pull of the various interest groups encamped in Washington, DC.

JAY COST is a senior writer for The Weekly Standard. He resides in Pennsylvania with his wife and two children.

*How Moral Narcissism
Is Undermining Our Republic*

WE ALL KNOW what narcissism is: the egotistical Narcissus unable to tear himself away from his reflection. But what is *moral* narcissism? The short form is this: What you believe, or claim to believe or *say* you believe – not what you do or how you act or what the results of your actions may be – defines you as a person and makes you “good.” In twenty-first century America, you are whatever you say you are, whatever you proclaim your values to be, their consequences be damned.

Like the 1960s song by The Animals, it’s all okay “if your intentions are good.” No one will even notice if the inner cities go up in flames or global warming turns into an Ice Age. Better than that, your status will rise as you continue to parrot the received wisdom.

In *I Know Best*, Roger L. Simon chronicles the major issues of our day – climate, gun control, terrorism, education, income inequality, immigration, race (especially), women’s rights, gay rights, political correctness, microaggressions and trigger warnings, media and entertainment bias – to reveal the profound influence of moral narcissism on our republic, almost always for the worse.

I Know Best shows how narcissism has become the prime hidden motor for our republic’s demise because it makes people blind to reality and renders democracy moot. Unchecked, moral narcissism is the royal road to a modern and distinctly American brand of fascism.

ROGER L. SIMON is an Academy Award nominated screenwriter and CEO of the pioneering blog aggregation and news and opinion website PJ Media. He lives in Los Angeles, California.

ENTIRE INDUSTRIES are being transformed, consumers have more power than ever before, and people are finding new ways to earn a living—even in today’s slow economic recovery. All of these improvements stem from the rise of the so-called sharing economy.

Even in the face of these benefits, innovation is in danger of being suppressed because of overzealous government regulation that protects existing businesses—all behind the façade of consumer safety.

This book chronicles Uber’s battle against the New York City taxi industry and its supporters in the government. It also shows the need to stand up for entrepreneurs and the vast benefits that they provide for consumers. As innovators tirelessly work to drive the economy forward, too often regulators function as annoying backseat drivers or roadblocks.

JARED MEYER is a fellow at the Manhattan Institute for Policy Research. His research interests include microeconomic theory and the economic effects of government regulations. He is the coauthor with Diana Furchtgott-Roth of Disinherited: How Washington Is Betraying America’s Young. He Lives in Washington, D.C.

Who Needs the Fed? | John Tamny

What Taylor Swift, Uber, and Robots Tell Us about Money, Credit and Why We Should Abolish America's Central Bank

TODAY, THE FEDERAL RESERVE is among the most disliked entities in the United States, having joined the IRS as the object of heaving electoral hatred. Americans despise the Fed, but if they are honest they are also a bit confused about why they so loathe our central bank or about what the Fed actually does – and, if they are really honest, how banking and credit work in the first place.

The truth is, credit is not a difficult concept to understand if explained clearly and simply. And understanding credit is key to understanding the economy and why the Fed and its most famous function – setting the interest rate – is so totally backwards.

With the help of Taylor Swift, Uber, Donald Trump, Michigan coach Jim Harbaugh, and robots, *Who Needs the Fed?* explains credit, how it works, and how our misunderstanding of credit and money has given the Fed power that it can't possibly use wisely.

Who Needs the Fed? is an everyman's case against the Fed that will leave readers enlightened, entertained and, above all, prepared to explain why the Fed is happily inconsequential on its best days, while perilous on its worst.

JOHN TAMNY is Political Economy editor at Forbes, a senior economic adviser to Toreador Research & Trading, and editor of RealClearMarkets.com. He lives in Washington, DC.

ENCOUNTER BOOKS
2016

WHEN HIS TEENAGED SON Christopher, brain-damaged in an auto accident, developed a 106-degree fever following weeks of unconsciousness, John Campbell asked the attending physician for help. The doctor refused. Why bother? The boy's life was effectively over. Campbell refused to accept this verdict. He demanded treatment and threatened legal action. The doctor finally relented. With treatment, Christopher's temperature subsided almost immediately. Soon afterwards he regained consciousness and today he is learning to walk again.

This story is one of many Wesley J. Smith recounts in his classic critiques of the modern bioethics movement, *Culture of Death*. In this newly updated edition, Smith chronicles how the threats to the equality of human life have accelerated in recent years, from the proliferation of euthanasia and the Brittany Maynard assisted suicide firestorm, to health care rationing posed by Obamacare and the explosive Planned Parenthood controversy.

Culture of Death reveals how more and more doctors have withdrawn from the Hippocratic Oath and how "bioethicists" influence policy by posing questions such as whether organs may be harvested from the terminally ill and disabled. This is a passionate, yet coolly reasoned book about the current crisis in medical ethics by an author who has made "the new thanatology" his consuming interest.

WESLEY J. SMITH is a senior fellow at the Discovery Institute's Center on Human Exceptionalism. He lives in California.

WHAT HAPPENS when a leading conservative economist goes *mano a mano* with today's most influential exponent of left-liberal economics, over free markets versus government interventionism? Here are highlights of that showdown between Stephen Moore of the Heritage Foundation and Paul Krugman, Nobel laureate.

Moore and Krugman sparred over eight major economic issues in our national debate – from whether the policy response to the crisis of 2008 was successful, to the outlook for Obamacare, to the “red state / blue state” divide. The contest was cordial and spiced with wit. (Does air conditioning explain the migration from blue to red states? Is Houston still uninhabitable?)

This high-powered matchup illuminates a clash of worldview that leads to opposing policy prescriptions. More important, it will help you draw conclusions about which economic policies work.

STEPHEN MOORE is a Distinguished Visiting Fellow at the Heritage Foundation and former editorial board member of the Wall Street Journal. He lives in Washington, D.C.

2016

HOW DID the civil rights movement transform from a cause opposing racism into a movement endorsing racial preferences and privileges for select groups based on their skin color? David Horowitz was a participant in the civil rights movement of the 1960s and 1970s and a witness to the events and betrayals that turned a noble movement on its head.

In *Progressive Racism*, Horowitz tells the story of how racial extortionists on the Left hijacked the civil rights movement and gave it a mob mentality in which white Americans are regarded as guilty before the fact and African Americans are regarded as innocent even when facts prove them guilty, even when their crimes are committed against other African Americans.

Progressive Racism examines how the term “racism” itself has been robbed of its meaning and turned into a political weapon to bludgeon opponents into silence. It exposes how the so-called civil rights movement became an oppressor of African Americans by bolstering disastrous social policies that have destroyed the black family, blighted the lives of millions of African American children, and created a permanent black “underclass” dependent on government aid. Above all, it is an indictment of the hypocrisy that today governs the public discourse on race, so that an angry mob in Ferguson Missouri seeking to execute a police officer because he was white can be described as a legitimate civil rights protest and be supported by the president of the United States.

DAVID HOROWITZ is president of the David Horowitz Freedom Center and founder of the online news magazine Front-PageMag.com.

The Way Back | F. H. Buckley

Restoring the Promise of America

NOTHING IS MORE CENTRAL to the idea of America than that this is a country where everyone can rise to the top with ambition and hard work. That is the promise of America, but now the promise has been broken.

We've become an aristocratic country, where rich parents raise rich kids and poor parents raise poor kids. We've been told that the changes are structural, that there's nothing we can do about this. But that doesn't explain why other First World countries are beating us hands down on the issue of mobility.

What's different about America is the structure of our political parties. The Democratic Party is an alliance of the poorest of Americans, those who have little chance to rise, and a New Class of the comfortably rich professionals, media leaders and academics who shape the contours of American politics and circumscribe our policies. It's an alliance of both ends against the middle that recalls the Red Tories of parliamentary countries.

Aristocracy, not mobility, is the natural default position of a society, but what is natural is seldom benign and never necessary. America can restore the middle and become less aristocratic by emulating countries that are more truly mobile. *The Way Back* shows us how.

F. H. BUCKLEY is a Foundation Professor at George Mason School of Law. He lives in Alexandria, VA with his wife Esther.

ENCOUNTER BOOKS
2016

RYSZARD LEGUTKO lived and suffered under communism for decades – and he fought alongside the Polish anti-communist movement to abolish it. But, having lived for two decades under a liberal democracy, he has discovered that these two political systems have a lot more in common than one might think. They both stem from the same historical roots in early modernity, and accept similar presuppositions about history, society, religion, politics, culture and human nature.

In *The Demon in Democracy*, Legutko explores the shared objectives between these two political systems, and explains how liberal democracy has over time lurched towards the same goals, albeit without the Soviet style's brutal measures.

Both systems, says Legutko, reduce human nature to that of the common man who is led to believe himself liberated from the obligations of the past. Both the communist man and the liberal democratic man refuse to admit that there exists anything of value outside the political systems to which they pledged their loyalty. And both systems refuse to undertake any critical examination of their ideological prejudices.

RYSZARD LEGUTKO is a professor of philosophy at Jagellonian University in Krakow, Poland. He is currently a Member of the European Parliament

The Closing of the Liberal Mind

Kim R. Holmes

*How Groupthink and Intolerance
Define the Left*

WHERE ONCE free expression and diversity of opinion were sacrosanct to the left, today's liberals employ speech codes, trigger warnings, boycotts, and shaming rituals to stifle freedom of thought, expression, and action.

How did this happen? How did American liberalism become an intolerant, rigidly dogmatic ideology opposed to free thinking?

In *The Closing of the Liberal Mind*, Kim Holmes offers a sweeping and original survey of American liberalism, ranging from the Enlightenment to contemporary politics, that explains why mainstream liberals has forsaken its American roots for the authoritarian prejudices of the radical and largely European Left.

Indeed, it is no longer appropriate to call it liberalism at all, argues Holmes, but illiberalism – a set of ideas in government, and the culture that demand strict political and social obedience, and which, under the guise of “inclusiveness,” is working to eliminate the “wrong” ideas and the “wrong” people from the political process entirely.

KIM R. HOLMES is a Distinguished Fellow and former Vice President of The Heritage Foundation and a former U.S. Assistant Secretary of State.

David Horowitz

The Black Book of the American Left

An Anatomy of Leftist Illusions, 1974–2012

DAVID HOROWITZ spent the first part of his life in the world of the Communist-progressive left, a politics he inherited from his mother and father, and later in the New Left as one of its founders. When the wreckage he and his comrades had created became clear to him in the mid-1970s, he left. Three decades of second thoughts then made him this movement's principal intellectual antagonist. "For better or worse," as Horowitz writes in the preface, "I have been condemned to spend the rest of my days attempting to understand how the left pursues the agendas from which I have separated myself, and why."

When Horowitz began his odyssey, the left had already escaped the political ghetto to which his parents' generation and his own had been confined. Today, it has become the dominant force in America's academic and media cultures, electing a president and achieving a position from which it can shape America's future. How it achieved its present success and what that success portends are the overarching subjects of Horowitz's conservative writings. Through the unflinching focus of one singularly engaged witness, the identity of a destructive movement that constantly morphs itself in order to conceal its identity and mission becomes disturbingly clear.

Horowitz reflects on the years he spent at war with his own country, collaborating with and confronting radical figures like Huey Newton, Tom Hayden and Billy Ayers, as he made his transition from what the writer Paul Berman described as the American left's "most important theorist" to its most determined enemy.

DAVID HOROWITZ is president of the David Horowitz Freedom Center and founder of the online news magazine Front-PageMag.com.

Hidden in Plain Sight | Peter J. Wallison

What Really Caused the World's Worst Financial Crisis – and Why It Could Happen Again

THE 2008 FINANCIAL CRISIS – like the Great Depression – was a world-historical event. What caused it will be debated for years, if not generations. The conventional narrative is that the financial crisis was caused by Wall Street greed and insufficient regulation of the financial system. That narrative produced the Dodd-Frank Act, the most comprehensive financial-system regulation since the New Deal. There is evidence, however, that the Dodd-Frank Act has slowed the recovery from the recession. If insufficient regulation caused the financial crisis, then the Dodd-Frank Act will never be modified or repealed; proponents will argue that doing so will cause another crisis.

A competing narrative about what caused the financial crisis has received little attention. This view, which is accepted by almost all Republicans in Congress and most conservatives, contends that the crisis was caused by government housing policies. This book extensively documents this view. For example, it shows that in June 2008, before the crisis, 58 percent of all US mortgages were sub-prime or other low-quality mortgages. Of these, 76 percent were on the books of government agencies such as Fannie Mae and Freddie Mac. When these mortgages defaulted in 2007 and 2008, they drove down housing prices and weakened banks and other mortgage holders, causing the crisis.

With *Hidden in Plain Sight*, no one can claim that the financial crisis was caused by insufficient regulation, or defend Dodd-Frank, without coming to terms with the data this book contains.

PETER J. WALLISON holds the Arthur F. Burns Chair in Financial Policy Studies and is co-director of AEI's program on Financial Policy Studies.

The New Totalitarian Temptation

Global Governance and the Crisis of Democracy in Europe

WHAT EXPLAINS THE unprecedented results of the May 2014 European elections? Why are long-established political parties in steep decline throughout Europe while protest parties ranging all the way from the far-right to the mainstream to the far-left are on the rise? Do the European elections portend real change in Europe, or will the political elites succeed in further pursuing their agenda of creating a unified Europe without accountability to voters?

The New Totalitarian Temptation: Global Governance and the Crisis of Democracy in Europe is a must-read for those who wish to understand the EU at its core. This is the first book to fully expose the EU's commitment to the utopian ideology of global governance, and its ambition to achieve an unprecedented "world peace" by establishing a new, ill-defined global order that would be essentially unaccountable to nation-states and their citizens.

The New Totalitarian Temptation explains how the EU has become inherently anti-democratic and unimpeded by electorates who do not sign on to their utopian vision. It shows how the EU seeks to transform not just the world order, but also remake the very lives of its citizens by promoting policies that deny tradition, local communities, and the basic constancy of human nature. Most dangerous of all, by seeking a global order in which the sovereign powers of all nation-states, including the United States, are severely curtailed, the EU is putting the world's most important alliance – that of America and Europe – at risk.

TODD HUIZINGA is Director of International Outreach for the Acton Institute for the Study of Religion and Liberty in Grand Rapids, MI. He is currently also a research fellow of Calvin College's Paul B. Henry Institute for the Study of Christianity and Politics.

Licensing, Reprint, Translation, Subsidiary and Foreign Rights Requests

Phone 855-203-7220 or e-mail ntully@encounterbooks.com.

Submission Guidelines

Non-Agented Authors: Due to a small staff and other considerations, Encounter Books no longer reviews non-agented submissions and we take no responsibility for unsolicited submissions. Authors who wish to find a literary agent to represent them should consult *Writer's Market* or *Literary Marketplace*, both of which are available in most public libraries.

Agents: Encounter Books publishes serious non-fiction in the areas of history, religion, biography, education, public policy, current affairs, social sciences, and politics. We are dedicated to well conceived and well argued works that promise to stimulate dialogue and that will have a long shelf life in bookstores and libraries, as well as within the classroom.

- Please review our catalog before submitting material.
- Please do not send the entire manuscript.
- Encounter Books does not accept manuscript proposals via e-mail.
